**DETAILED ACTION**

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 8-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1) Claim 8 lines 1-3, the sentence is ambiguous and should be stated with better clarity. For example, the section "An apparatus for monitoring a measurement transmitter of a field device determining....process parameter" does not read well. Furthermore, use of the terms an/or should be eliminated and replaced with more definitive language.

2) Claim 8 as well is ambiguous as to which sensor is being referred to in the claims. It appears that both the field device and the housing are two separate entities. Furthermore, it appears that each entity contains its own sensor. Therefore, the claim is ambiguous as to which sensor is being referred to in the last line in which the transmitter of the field device is mounted on?

3) Claim 8 line 3, the phrase "measured temperature" has not antecedent basis. In reference to line 6 of claim 1, the temperature is recited as being "determined" not "measured".

Appropriate correction is required.

***Allowable Subject Matter***

4. Claims 8-15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
